Doing your master's dissertation - Inger Furseth, Euris Larry Everett, 2013[Book](#)**Background and wider reading** (7 items)

Listed here is a set of general texts and resources which you are encouraged to explore.

This is by no means exhaustive or compulsory, and you are encouraged to suggest additions to the set from your own reading - contact Dr Jon Bridge.

Some of these titles are available in the Adsetts library. All titles should be available from major booksellers and online; good quality secondhand copies of most of these titles can be acquired at relatively low cost.

Classics in environmental studies - 1998

Book | **Suggested for Student Purchase** | An extremely good one-stop anthology of key excerpts from foundational texts in (mostly Western, mostly 20th Century) environmental studies

The handbook of sustainability literacy: skills for a changing world - Arran Stibbe, 2009

Book | **Suggested for Student Purchase** | A transformational introduction to sustainable, eco-centric thinking and practices.

The book of trespass: crossing the lines that divide us - Nick Hayes, 2021

Book | **Suggested for Student Purchase** | Not just a book about land and property, this searing and highly readable set of essays lays bare the cultural and philosophical roots of capitalism, colonialism and global inequalities - and the environmental and human consequences.

The ecology of commerce: a declaration of sustainability - Paul Hawken, 2010

Book | **Suggested for Student Purchase**

Post Growth - Tim Jackson, 2021-03-26

Book | **Suggested for Student Purchase**

The uninhabitable earth: a story of the future - David Wallace-Wells, 2019

Book | **Suggested for Student Purchase**

Unruly Waters - Sunil Amrith, 2020

Book | **Suggested for Student Purchase**
